ABOUT ME

I am a software developer with extensive experience in designing and implementing robust solutions using C++, the Qt Framework, and Python. My object-oriented programming skills and focus on quality which allow me to create efficient and cross-platform applications. I have a successful background in mid level role. I believe that through perseverance and curiosity, anything can be achieved.

EXPERIENCE

My practical experience which has enhance my growth :

- Led the development of cross-platform applications using C++ and Qt, resulting in a 20% improvement in performance and enhanced user experience.

- Implemented continuous integration processes, significantly reducing development cycle times and ensuring code quality.

- Conducted thorough code reviews and mentored junior team members, fostering a collaborative and knowledge-sharing environment.
